

Abstract Guidelines

Formatting Guidelines | Abstract Submission

Abstracts for poster presentations for UK Metabolomics Symposium must be submitted by Noon (EDT) on June 30, 2022, via the online registration form at the bottom of the page.

The Program Committee will review abstracts based on their relationship to human metabolism, novelty, significance of findings and clarity.

Format

Line 1: Title – maximum 25 words, 14- point Bold Arial or Times New Roman. The title should sufficiently represent the content of the abstract.

All keywords necessary to identify the subject matter should be included in the title to facilitate electronic retrieval where applicable. Non-standard abbreviations in the title should be avoided.

Remainder text – 11-point Arial or Times.

Line 2: Authors – use superscript numbers to refer to affiliations

Line 3: Affiliations

Line 4: Blank

Line 5: Abbreviations used in the body of an abstract should be defined at first use. Complex investigational regimens should be clearly identified.

Each abstract should be sectionalized as follows:

Background: A brief statement indicating the purpose(s) of the study

Experimental Procedure: A brief description of pertinent experimental procedures used.

Results: A clear representation of experimental results.

Conclusion: A statement of conclusion.

Acknowledgements: e.g. funding

Bibliography

The total character count (including the title and list of authors) may not exceed 4000 characters, including spaces; or 1 page, including any graphical content or Table.

Submitting your abstract:

Abstracts for poster presentations must be submitted by Noon (EDT) on June 30, 2022, and can be uploaded as a Word document when you register using our online site:
